Report of the School Board.

To the citizens of the Town of Hebron. The School Board herewith submit their report for the year ending March 1, 1890.

The number of schools supported by the town district during the year has been two, one at the McClure school house and one at the village. We have sent one scholar to Bridgewater and received one from Plymouth.

The Summer term of ten weeks in the McClure District was taught by Miss MAUD M. DOLLOFF, of Bridgewater. This was Miss Dolloff's second term and, being a thorough scholar herself, she quickly brought order out of confusion, and at the time of our first visit we found her hard at work, and the success which attended her efforts was very gratifying to us. Rhetorical exercises at the close were very interesting.

Number of visitors, 34. Roll of Honor: Walter R. Merrill, Nellie M. Merrill, Edwin W. Merrill, Frank Russell. Addie L. Cilley

The Fall term of twelve weeks was taught by Miss ALICE A. MATHEWS, of Plymouth. Miss Matthews had the experience of three different schools to aid her and she proved a first-class teacher. Perfect order was her rule and the advance in all the studies was all that could be expected. We visited the school at the commencement and at the close.

Number of visitors, 26. Roll of Honor: Arthur W. Kidder, Frank Russell.

Recitations and declamations at the close were very interesting and were listened to by many of the friends and parents of the pupils.

The Summer and Fall terms at the village were taught by Miss CELIA A. JEWELL, of this town. Miss Jewell has taught this school seven terms in succession, which speaks well for her as a teacher, second to none. The order was perfect and secured without any apparent effort on her part. The closing examination of both terms indicated that there was a close and continued application on the part of the scholars and a careful and intelligent direction on the part of the teacher. The parents of this district take a great interest in their children and express their appreciation of a good school by their presence at the examination. A splendid and interesting literary program was presented at the close of both terms. Number of visitors first term, 56; second term, 58. Roll of Honor, first term: Lola G. Follansbee, Daisy F. Morgan, Alice M. Morgan, Mammie A. Rogers, Norman W. Sanborn, Charlie N. Blodgett, I. Verne Follansbee. Second term: Jessie L. Morgan, Edward M. Jewell, Walter R. Bean, Joseph F. Blodgett. Charlie N. Blodgett.

GENERAL REMARKS.

Our schools the past year have been all first-class. Your committee have been fortunate in securing good teachers at reasonable wages. There has been a disposition on the part of the scholars to study hard and the result will compare favorably with the schools of previous years.

We found one great fault in the large number of text books in the school, nearly every pupil having a different kind of a book, thereby making it necessary to form a large number of classes and making unnecessary work for the teacher, but this fault is happily remedied by the new text book law now in force and we look forward to a better classification in the future.

We also feel obliged to speak of the indifference on the part of parents in not providing suitable books for their children. This was very noticeable in the East Hebron school, where, in a school of seventeen scholars, but two old spelling books could be found, and these had to do duty for the whole school.

Another evil that exists to a certain extent and greatly increases the labor of the teachers is the habit of discussing, not only in the presence of the children, but with others, the teacher's capabilities, manner of government and other matters, which should never be spoken of except to the proper persons, whose business it is to right all wrongs that may exist in the schools.

Our school-houses are an ornament to our town and are in good repair, the one at the village having been repaired the past year and is now in good condition, so that nothing will need to be done to either of them for some time to come. A new stove is needed in the McClure house. The one in use is the one used in the old house and is badly broken, and while it may be used with safety, a new one would be more in keeping with the surroundings.

In conclusion allow us to return our thanks to all who have aided us in any way while in the discharge of our official duties.

Respectfully submitted,

H. M. WORTHLEY, Superintendent of Schools.
